## JOURNAL

### OFFICE OF LEGISLATIVE COUNSEL

Thursday - 28 May 1964

1. (Unclassified - GLC) Talked with Fred Mesmer, Senate Immigration Subcommittee staff, regarding the private bill of Serwyn Bialer. I advised Mesmer that the Immigration and Naturalization Service had informed us that it was submitting a report to the Subcommittee and I merely wished to alert him to this. Mesmer said he would be on the look out for it and be in touch with us when the report was received.

25X1

3. (Confidential - GLC) Bill Darden, Senate Armed Services Committee staff, asked that we review a confidential letter to the Chairman from a student (formerly a commissioned officer in the 82nd Airborne Division) indicating his interest in joining a group of students who plan to travel to Cuba in defiance of State Department instructions. This is being forwarded to DD/P for appraisal.

4. (Internal Use Only - JSW) Talked with Bob Michaels, House Appropriations Committee staff, asking him to raise with Mr. Mahon the item about the printing plant contained in our last letter to Mr. Cannon. Michaels said Mr. Mahon was out of town until Monday but that he would do it first thing and let us know. He also brought to our attention an Air Force item in the reprogramming which allegedly prints paper six times as fast. It is called a lexical-graphical composer/printer system. It is described as a real break through and is the first such item approved by the Joint Committee on Printing by letter to the Air Force of 3 March 1964. Mr. Clarke has been advised of this in order that we can be prepared to deal with the question if it is raised.

5. (Unclassified - JGO) I talked to Congressman John E. Moss, Chairman, Foreign Operations and Government Information Subcommittee, and advised him that Mr. Bannerman could not be available for hearing on the 2nd, 3rd or 4th as requested in the Committee letter. I also advised him that this conversation would be followed by a letter from General Carter later in the day. The Congressman thanked me very much for the information and advised that it would be necessary to poll the committee before rescheduling, but indicated an appreciation of the fact that we could meet with the committee on the 5th, 8th and 9th or the 8th, 9th and 10th if desired.

6. (Internal Use Only - JGO) Met briefly with Jay Sourwine, Counsel, Senate Internal Security Subcommittee, and advised him that copies were not yet available of the [redacted] 600-page release concerning the Wennerstrom pre-trial hearings.
